

Transactional Analysis 202 in Helsinki!

Have you already gone to a 101 introductory course in Transactional Analysis?

Do you wish to continue?

Here is your opportunity!

The TA 202 is a common name for the course that comes after the TA 101. In this case the program lasts for three years. While the International TA associations EATA (*European Association for Transactional Analysis*) and ITAA (*International Transactional Analysis Association*) only acknowledges CTA (Certified Transactional Analyst) as the basic degree, several countries have chosen to acknowledge an intermediate stage as well. This is what we offer and acknowledge with a Diploma.

Trainers:

Stefan Sandström, is the main trainer. He is a licensed psychologist and has the highest international examination in TA: Training and Supervising Transactional Analyst in the psychotherapy field (TSTA-p). He is the author of several books that can be seen on his homepage.

Homepage: <http://www.2san.nu/>

Ritva Piironen, is assistant trainer. Ritva is a psychotherapist and holds a MA degree in social sciences. She is the first in Finland to take her exam as a Certified Transactional Analyst. . She has also specialised in trauma psychotherapy and body oriented therapy methods.
