

Supporting the Growth

Nordic TA conference in
Ahvenanmaa

17.-19.4.2015

organised by FinTA ry

(The Transactional Analysis Association of Finland)

Hotell Arkipelag

Maarianhamina, Ahvenanmaa

Supporting the Growth

We invite you all to come to the edge of growth....

to find the many ways how TA encourages growth in individuals, groups and organizations.

Eric Berne (1961), the founder of Transactional Analysis (TA), talked about Physis – all the powerful life force of nature that eternally strives to make things grow. Physis is nature, coming from the deepest biological roots of the human being and striving towards the greatest realization of the good. Physis provides meaning in our life.

**In philosophy Physis
as a verb also means
'to be'
–'what things really are'.**

Are you willing to share a skill or a vision?

Have you searched and found something that you would like to tell others?

Would you like to benefit from the idea-producing capacities and experiences of the conference participants?

The conference consists of presentations and workshops (times 1.5 or 3 hours each). Come to share and learn something new, or find new views to familiar concepts.

Send us your presentation proposal until 15.10.2014
tanordic2015@gmail.com

Tell us your subject, the way of presenting (presentation or workshop) and describe the content briefly.

Come to enjoy the TA atmosphere!
